

As cable manufacturer with a 130-year history, bda connectivity GmbH is considered a pioneer in communications technology and manufactures special cables that are optimized for the respective application area. A new addition is a product range of high-quality indoor antennas and passive components for the telecommunications market. The corporate culture is characterized by trust, mutual respect, transparency and cohesion.

In order to meet the growing requirements of the market, we are looking for you to join us at our site in Aßlar, Hesse, Germany as:

Product Developer for Cables (m/f/d)

Your tasks:

- Development and design of cables in compliance with customer specifications, technical requirements and international norms or standards
- Preparation of production and test documents
- Production support during the introduction phase
- Implementation of quality assurance measures
- Technical customer support
- Support at supplier selection and procurement of pre-materials
- Ensuring material compliance

Your profile:

- Ideally a technician or university graduate specializing in electrical engineering, communications engineering, process engineering, materials science or chemistry
- Basic knowledge of electrical engineering
- Flexibility, commitment, and team spirit
- Good knowledge of English and German language and of relevant software applications
- Independent, self-motivated way of working

We offer:

- Thorough initial training
- Attractive remuneration
- Demanding and interesting work
- Dynamic work environment
- Very good working atmosphere
- Flexible working hours

If you would like to join our team, please send your complete application documents by email to Ms. Elke Heinel: elke.heinl@bda-c.com.
